

Learning Tree Farm offers tuition assistance to qualified families. This assistance is extended to families based on the federal poverty levels. We do not take financial standing into account when forming classes. Families must register and be entered into the lottery prior to February 20, 2018. After the class list has been established for the year, families may apply for tuition assistance by making an appointment with Education Director, Meredith Florkey. Below you will find a listing of these levels as well as the tuition reduction rates. Any questions on this topic can be directed to Meredith Florkey at education@learningtreefarm.org.
